

BARBARICUM

# CYBER SECURITY TECHNICAL AREA TASKS (CS TAT)

## Barbaricum Introduction

Barbaricum is an ISO 9001:2015-certified and CMMI Level 3-appraised, Service-Disabled Veteran-Owned Small Business (SDVOSB) providing full-scale Mission Support, Cyber Security/Intel, Integrated Communication, Research and Analysis, and Technology-Enabled Services. Since 2008, Barbaricum's marked success has positioned it as the fastest-growing company in its market. To date, our team's innovative and technical approach has secured over 70 contracts, providing services as a Prime on more than half. Barbaricum provides a suite of technology-enabled services—research, development, training, rapid acquisition & prototyping, validation and visualization, integration, and testing & evaluation—to address diverse technological needs. We are committed to providing solutions that work in permissive, uncertain, non-permissive or high-threat environments. Clients can gain access to our specialized services through a number of schedules and vehicles that Barbaricum holds along with CS TAT including, IT-70, PSS, HCaTS, SWMS-B, T-REX, and more.

In addition to our agile technical solutions, Barbaricum focuses on corporate culture as a cornerstone of the organization. As a result of this focus, Barbaricum was honored as one of *Inc. Magazine's* Best Workplaces for 2017. Furthermore, Barbaricum is affiliated with industry-leading organizations like the Global SOF Foundation, National Defense Industrial Association (NDIA), the Association of the United States Army (AUSA), and others.

## CS TAT

This vehicle is an agile Indefinite Delivery Indefinite Quantity (IDIQ) Multiple Award Contract for Research & Development (R&D) and/or Advisory & Assistance Services related to R&D efforts. Additionally, it is a preferred vehicle of The Department of Defense (DoD) Information Analysis Centers (IACs) and is a direct result of the better buying power ideas encouraged by the Honorable Frank Kendall, Under Secretary of Defense for Acquisition, Technology and Logistics.

## Vehicle Focus Areas

The focus areas in CS TAT expand further than its cyber security namesake . This allows customers to map a host of requirements to the vehicle. The four main focus areas can be found below and are addressed in greater depth in the accompanying slide deck.

- **Information Assurance**
- **Software Data & Analysis**
- **Knowledge Management & Information Sharing**
- **Modeling & Simulation**

## Contact Information
