

BARBARICUM

COMBATING TERRORISM TECHNICAL SUPPORT OFFICE SPECIAL WARFARE TECHNICAL SUPPORT (SWTS)

Barbaricum Introduction

Barbaricum is an ISO 9001:2015-certified and CMMI Level 3-appraised, Service-Disabled Veteran-Owned Small Business (SDVOSB) providing full-scale Mission Support, Cyber Security/Intel, Integrated Communication, Research and Analysis, and Technology-Enabled Services. Since 2008, Barbaricum's marked success has positioned it as the fastest-growing company in its market. To date, our team's innovative and technical approach has secured over 70 contracts, providing services as a Prime on more than half. Barbaricum provides a suite of technology-enabled services—research, development, training, rapid acquisition & prototyping, validation and visualization, integration, and testing & evaluation—to address diverse technological needs. We are committed to providing solutions that work in permissive, uncertain, non-permissive or high-threat environments. Clients can gain access to our specialized services through a number of schedules and vehicles that Barbaricum holds including CS TAT, IT-70, PSS, HCaTS, SWMS-B, T-REX, and more.

In addition to our agile technical solutions, Barbaricum focuses on corporate culture as a cornerstone of the organization. As a result of this focus, Barbaricum was honored as one of *Inc. Magazine's* Best Workplaces for 2017. Furthermore, Barbaricum is affiliated with industry-leading organizations like the Global SOF Foundation, National Defense Industrial Association (NDIA), the Association of the United States Army (AUSA), and others.

SWTS

CTTSO SWTS is a \$48M Indefinite Delivery Indefinite Quantity vehicle designed to meet the requirements of a number of potential customers in the Combatting Terrorism Community. It directly supports the Technical Support Working Group's mission to develop technologies and equipment to meet high priority needs. SWTS focuses on Special Operations technical capabilities, specifically the Find and Fix lines of effort within Special Warfare.

Barbaricum has developed an agile, adaptive, and holistic process to identify solutions for the end user. As a result, Barbaricum is one of two companies on the vehicle that has received an "outstanding" technical and has been rated one of the least expensive prime contractors on SWTS. We provided CTTSO with tangible results and well-assessed, cutting-edge technology.

Vehicle Focus Areas

The requirements on this vehicle fall into the categories of rapid system and capabilities development, training, and commercial technology exploitation and independent test and evaluation. More specifically, the technology focus areas include:

- **Tactical Communications**
- **Close and Long Range Reconnaissance**
