

BARBARICUM

BARBARICUM CAPABILITIES OVERVIEW

Barbaricum Introduction

Barbaricum is a Service-Disabled Veteran-Owned Small Business (SDVOSB) providing full-scale Mission Support, Cyber Security/Intel, and Integrated Communication services. Barbaricum's marked success has positioned it as the fastest-growing company in its market. We possess an ISO 9001:2015-certified and CMMI Level 3-appraised Quality Management System (QMS) to deliver superior value to our clients.

Barbaricum provides a suite of technology and engineering services—research, development, training, rapid acquisition & prototyping, validation and visualization, integration, and testing & evaluation—to address our clients' diverse, technological needs. We are committed to providing solutions that work in permissive, uncertain, non-permissive or high-threat environments.

IAC MAC

IAC-MAC is a nine-year, \$28 billion indefinite quantity, indefinite delivery contract for research and development (R&D) and advisory & assistance services related to R&D efforts services for the DoD's Defense Technical Information Center (DTIC). It consolidates efforts of 40 contracts previously managed under three vehicles: Defense Systems Technical Area Tasks (DSTAT), Homeland Defense and Security Technical Area Tasks (HDSTAT), and Cyber Security Technical Area Tasks (CS TAT).

Focus Areas

Specific tasks of the IAC-MAC fall into the categories of cybersecurity, weapon systems, autonomous systems, critical infrastructure, biometrics, and medical services. IAC-MAC's focus areas are:

- Weapons Systems
- Autonomous Systems
- Survivability & Vulnerability
- RMQSI
