

BARBARICUM

TARGETED REQUIREMENTS EXECUTION (T-REX)

Barbaricum Introduction

Barbaricum is a Service-Disabled Veteran-Owned Small Business (SDVOSB) providing full-scale Mission Support, Cyber Security/Intel, and Integrated Communication services. Barbaricum's marked success has positioned it as the fastest-growing company in its market. We possess an ISO 9001:2015-certified and CMMI Level 3-appraised Quality Management System (QMS) to deliver superior value to our clients. Since 2008, Barbaricum's marked success has positioned it as the fastest-growing company in its market. To date, our team's innovative and technical approach has secured over 70 contracts, providing services as a Prime on more than half. Barbaricum provides a suite of technology-enabled services—research, development, training, rapid acquisition & prototyping, validation and visualization, integration, and testing & evaluation—to address diverse technological needs. We are committed to providing solutions that work in permissive, uncertain, non-permissive or high-threat environments.

In addition to our agile technical solutions, Barbaricum focuses on corporate culture as a cornerstone of the organization. As a result of this focus, Barbaricum was honored as one of *Inc. Magazine's* Best Workplaces for 2017. Furthermore, Barbaricum is affiliated with industry-leading organizations like the Global SOF Foundation, National Defense Industrial Association (NDIA), the Association of the United States Army (AUSA), and others.

T-REX

Barbaricum is one of four prime contractors on the \$750 million Targeted Requirements Execution (T-REX) Indefinite Delivery/Indefinite Quantity vehicle. This contract is procurement-based and focused on Intelligence, Surveillance and Reconnaissance solutions. It is managed by Special Operations Command's Program Executive Office Special Reconnaissance, Surveillance and Exploitation.

Barbaricum's diverse experience in procurement, modification, integration, storage, packaging, and shipping ensures that requirements are professionally filled. Our operator-centric approach results in better solution insights and a faster response time. Additionally, our relationships with over 50 independent Original Equipment Manufacturers (OEM) and vendors ensure cost-effective delivery for the highly specific, niche solutions required by America's special operators.

Vehicle Focus Areas

The aim of T-REX is to acquire Systems Integrators/Coordinators to provide Intelligence, Surveillance and Reconnaissance technology solutions and to manage related incidental development. The four main categories are:

- **Hardware and Modifications**
- **Specialized Communication Solutions and Networks**
- **Signal Processing Capabilities**
- **Systems Integration**
